Lot	Type	Reserve (\$NZ)	
Patricia Langford estate ...			
1	WW		Muricidae 21 lots. Names on labels L to R: cabriti x2, woodringi, tweedianum x2, concinnus, centrifuga, foliatum, tribulus x2, erinaceoides, armigera x2, rectirostris x2, festiva x4, florifer, trivalis, gambiensis, dilecta x3, eugeniae, florifer x2, trapa x2, fourmieri x2, no label x2, burnetti.
2	WW		Muricidae 17 lots. Names on labels L to R: brassica, brandaris x2, regius, trunculus, microphyllus x2, erinaceus x2, cichoreus, no label, bovigerisi (? illegible) from Angola, no label, princeps, geversianus x3, pomum x2, brunneus, chrysostoma, trivalis x3, laciniatus x2.
3	WW		Buccinidae. 10 lots. Names on labels L to R: lamellosa, grandis, lischkei, maxima, arthritica x2, mendozana x3, japonica, vinosa, no label, antiqua.
4	WW		Buccinidae 12 lots. Names on labels L to R: mirandum, gracilis, signum x2, lutosa x2, lamarckii x2, afra, humphreysianum, stimpsoni, lima x3, macrospira x3, kuroshio, Volutharpa perryi.
5	WW		Livonia mammilla 217mm
6	WW		Melo aethiopica 184mm
7	WW		Volutidae 14 lots. Names on labels L to R: hunteri, maculata x2, aethiopica, papillosa, rutila x2, vespertilio, bullatiana, zebra x3, maculata x7, Cymbium sp, complexa x3, studeri x4, damoni x2, zebra lineatiana x2.
8	WW		Volutidae 3 lots. Fulgoraria cancellata 165mm, Aurinia dubia 143mm, Scaphella junonia johnstoneae.
9	WW		Volutidae 16 lots. Names on labels L to R: undulata, junonia, mollerii, damoni x2, pulchra x2, hunteri, nivosa oblita x2, maculata x2, nivosa x2, vespertilio, undulata x2, maculata, zebra x3, wisemanni x2, nobilis, flavicans.
10	WW		Neverita lewisi 97mm
11	WW		Fasciariidae 9 lots. hunteria x2, no label 170mm, australasia, tulipa, ocelliferus x2, hunteria, aurantiaca x3, Tudicla spirillus, filamentosa x2
12	WW		Fasciariidae. "Spindle shells". 16 lots. Names on labels L to R: forceps, australis x2, panamaensis x2, Propefusus pyrulatus x2, rostratus x2, longicaudus x2, irregularis, nipponicus x2, syracusanus, discrepans, simplex x3, sp colus?, nicobaricus, crassiplicatus 184mm, perplexus ferrugineus x2.
13	WW		Bivalves. 16 lots. Names as seen in photo.
14	WW		Bivalves. 25 lots. One scoop.
15	WW		Bivalves. 12 lots. In genuine original bags.
16	WW		Gastropods. 41 lots. In genuine original bags.
17	WW		Most are Cancellariidae. 32 lots. L to R: granosa x2, cassidiformis x2, x1, reticulata x2, oblonga x4, reticulata x4, cassidiformis x3, laticosta x3, spengleriana, cancellata x6, cremata x2, decussata x2, reeveana, westralis x2, identata x2, Leucozonia x2, undulata x2, obesa, tenerum x3, bulbulus x2, scalarina x3, lactea x3, spengleriana, crenifera x2, semidisjuncta x3, Burnuperna limbosa, Cantharus undosa x2, reticulata x2, clavatula x2, spirata x2, ventricosa x2, solida x2.
18	WW		Naticidae 21 lots. L to R: bifasciata x4, recluzianus x3, hebraeus x4, didyma x2, mamilla x2, stellata x5, aurantia x3, uber x2, melanostomus x4, vitellus x4, fusca x4, "not vitellus, black op's" x2, aulacoglossa x2, bicolour (try albumen?), onca x2, tumidus x2, hebraeus, stercusmuscarum x6, vitellus x2, stellata x1, fulminea x2.
19	WW		Gastropods. 27 lots. L to R: Cantharus gemmatus x2, Buccinanops duartei x2, Epitoniums: humphreysii x2, lamellosum x2, x2, Latirus mediamericanus, Northia pristis x2, Terebra glauca x7, Fusinus ambustus x2, Knefastia dalli x2, Terebra variegata x4, armillata x2, Cerithium adjustum, Nerita fulgurans x2, peleronta x3, Cancellaria urceolata x2, Terebra pedroana x2, micans x5, Acanthina monodon, Biplex perca x3, Trajana acapulcana x3, Natica marochiensis x2, x2, chemnitzii x2, elenae x2, Cominella distorta, Buccinum corneum x3.
20	WW		Muricidae. 4 lots. L to R: erythrostoma, nigrita, regius, virgineus x2.
21	WW		Haliotidae. 18 lots. L to R: kamtschatkana, ovina, tuberculata, spadicea, coccoradiata, asinina x2, roei, asinina x1, x1, x1, lamellosa x2, No label, asinina, parva x2, scalaris emmae.
22	WW		Conidae. 23 lots. L to R: aulicus, miles x2, leopardus, marmoreus, geographus x2, sumatrensis (?pulcher?), amadis, zonatus x2, distans, patricius, vexillum, capitaneus x2, genuanus x2, imperialis, vitulinus x2, quercinus, sulcatus (doubt it), textile, magus, suratensis, litteratus, striatus, malacanus.
23	WW		Conidae. 28 lots. L to R: radiatus x2, princeps lineolatus, novaehollandiae, quercinus, doreensis, tessulatus x2, princeps x2, planorbis, dalli (nice), spurius atlanticus x2, californicus x5, monachus x2, magus, litteratus, generalis x2, zeylanicus, marmoreus x2 (w.op's), californicus, catus, recurvus, planorbis, virgatus x2, ochroleucus x2, tessulatus (w.perio!), recurvus.sulcatus x2, coronatus x2.
24	WW		Turbinidae, Trochidae. 16 lots. L to R: militaris x2, pyramis, torquatus x2, chrysostomus x2, natalensis x3, petholatus x2, cidaris x2, No label x3, delphinus x2, lineatus x3, stenogyrys x2, reevei x5, latispina x2, unguis x3, cornutus x2, squamosa x4.
25	WW		Turbinidae. Turbo sarmaticus 107mm w/op.

26	WW		Muricidae. <i>Muricanthus nigratus</i> 120mm.
27	WW		Ranellidae. <i>Ranella olearium</i> Algeria 155mm.
28	WW		Bursidae, Cymatiidae. 17 lots. L to R: No label, magellanicus, bufonia, caudatum (labelled angulatum), perryi, pileare, spengleri, pyrum, crumenoides x2, nana, tuberosissima x2, rubicunda, gigantea, perryi x2, lissostoma, murrayi, pileare.
29	WW		Cymatiidae, Personidae. 8 lots. L to R: femorale, pyrum x2, spengleri, reticulata x2, aculeatus, gutturnium x2, succinctum x2, jucundum x2.
30	WW		Cymatiidae. 17 lots. L to R: clandestinum, gemmatum x3, clandestinum x3, exarata kiiensis x3. Gyrineums: roseum x3, cuspidatum x3, natator x2, bituberculare, gyrinum x3, x2. M.gemmatum x3, nicobaricus, amictum, muricinum, pileare, aquatilis, pileare x2.
31	WW		Personidae. 9 lots. L to R: clathrata x2, "ridens, Ivory Coast" (?) x2, constricta x2, clathrata x2, reticulata, decussatus x2, anus x2, perdistorta x2, anus.
32	WW		Pectinidae. 9 lots, all pairs. L to R: townsendi, nobilis, australis x1, x1, No label, australis, dieffenbachii, gloriosus x2, pallium x2.
33	WW		Cypraeidae 19 lots. L to R: helvola x3, lutea x5, isabella x3, erroneus x3, erosa x2, lamarckii redimita, moneta x5, boivini x4, pulchra, arabicula x2, ovum x2, capensis, felina x3, miliaris x5, lamarckii, xanthodon x3, limacina x3, coxeni x2, moneta x2.
34	WW		Strombidae 3 lots. L to R: peruvianus 144mm w/op, costatus 143mm w/op, latissimus 142mm.
35	WW		Strombidae 13 lots. L to R: alatus x3, turritus x2, listeri x2, iredalei, variabilis x2, pugilis, klineorum x2, orrae x2, labiosus x2, labiatum x2, marginatus x3, mutabilis x2.
36	WW		Conidae. 19 lots. L to R: vexilluym, imperialis x2, vexillum, litteratus, abbas, litteratus, striatus, spectrum x3, textile x2, distans, ammiralis, loroisii x2, marmoreus, thalassiarachus x2, capitaneus, mediterraneus x4, regularis x2, virgo, anemone x3.
37	WW		Conidae. 25 lots. L to R: omaria x2, lynceus, nicobaricus x2, regularis x4, princeps lineolatus, tribblei, ximenes x2, perplexus x2, furvus aegrotus x2, No label, remo, pennaceus, (omaria?) x2, fuscatus x2, sowerbyi x3, omaria x2, inscriptus x3, episcopus x2, parvulus x2, daucus x3, nobilis x3, nigropunctatus, rattus x2, urashimanus, mediterraneus x2, anemone x4.
Femorale (ex Snook collection) ...			
38	WW		Large traylot of cone shells
39	WW		Large traylot of Fascioliariidae seashells
40	WW		Traylot of Ranellidae seashells
41	WW		Traylot of Muricidae seashells
42	Book		Seashore Ecology of NZ and the Pacific. John Morton, 2004, 504pp. Prof Morton's magnum opus, a magnificent book! Ably assisted by many we know, and in fact quite a few club members are mentioned by name in the foreword.
43	Book		Manual of the NZ Mollusca. Henry Suter, both volumes, 1913. (Text vol is 1120pp, plus the Plates volume). Stains etc inside cover of Plates. Otherwise good condition
44	Books		. New Zealand Seashells. Visual Guide. Bracegirdle & Raven, 2010, 76pp. Lots of ticks, and spine a goneburger. . Shells of New Zealand. A.W.B.Powell, 4th ed. 1961, 203pp. Lots of ticks, underlining etc, spine needs repairs.
45	Book		The Wagener Museum Sale catalogue, October 2003. With highlights illustrated. Also enclosed is a list of the 228 shell lots.
46	Book		Guidebook to Pecten Shells: Recent Pectinidae and Propeamussidae of the World. A.Rombouts, 1991, 157pp.
47	Book		Spiny Oyster Shells of the World: Spondylus. Kevin Lamprell, 1986, 84pp.
48	Book		Spiny Oysters: A Revision of the Living Spondylus Species of the World. Kevin Lamprell, 2006, 119pp. No.246/500 copies.
49	Books		. A Guide to Australian Shells. Alan Hinton, undated, 77 Pl's. . United States Mollusca. Webb, 1942, 224pp.
50	Books		. Bivalves of Australia, Vol.1 and Vol.2. Kevin Lamprell, 1992/1998. 182pp & 288pp. . Bonus book: Cardiidae of Western Australia, 1977, 114pp.
51	Books		Australian Marine Shells Vol.1 (1993) 407pp, lots of ticks, and Vol.2 (1994) 370pp, lots of ticks, Barry Wilson.
52	Book		Recent Angariidae. Poppe & Goto, 1993, 32pp then 10 Pl's.
53	Book		Sea Shells of Southern Africa. Richard Kilburn & Elizabeth Rippey, 1982, 249pp. No ticks.
54	Books		. The Families Speightiidae and Turridae. A.W.B.Powell, 1966, 184pp then 23 Pl's. . Syst. of the Families Mitridae and Volutomitridae. Cernohorsky, 1970, 190pp.
55	Books		. The Coquillages of New Caledonia. Mayissian, 1974, 72pp. Rare book . Porcelaines: Niger et Rostrees de Nouvelle Caledonie. (transl: Cowries: Niger and Rostrate, of New Caledonia) J.M.Chatenay, 1977, 113pp. Half French, half English. Rare book
56	Book		Mitridae, Costellariidae. Robin & Martin, 2004, 34pp, then 64 plates.
57	Book		Manual of the Living Conidae. Rockel, Korn, & Kohn, 1995, 517pp.
58	Book		Ranellidae and Personidae of the World. Henning & Hemmen, 1993, 263pp.
59	Book		Shells of the Philippines. Springsteen & Leobrera, 1986, 377pp. With plastic protector.
60	Book		Bursidae of the World. Cossignani, 1994, 119pp.
67	WW		Hippopus hippopus 130mm, Tridacna crocea 110mm, T.maxima 152mm.
68	WW		Tridacna crocea 102mm, T.maxima 116mm, T. squamosa 105mm.
69	WW		Hippopus hippopus 115mm, H.porcellanus 125mm.
70	WW		Tridacna squamosa 204mm

Heather Smith ...			
71	WW	\$100	20 GASTROPODS world wide, from 20 families including Cypraea aurantium, Chicoreus spectrum, Lambis chiraga rigasa, Voluta ebraea, Harpa cabriti and more.
72	WW	\$50	15 BIVALVES World wide including spondylus crassiquama, Mimichamys australis, Swiftopecten swifti, Antigona samwangi, Gari accidens, Phylloida floiacea, and more.
73	WW		CARL LINNAEUS Educational Tray including numerous shells.
74	WW		WORLD WIDE Variety of Shells including Aliger callus, Fusinus Salisbury, Lambis crocata, Malea pomum, Haliotis discus, Busycon contrarium, Tectus conus and more.
75	WW		SMALL CYPRAEIDAE including Cribraria cribraria, Cypraea scurra inica, Erosaria limacina, Erosaria lamackii, Erosaria granranosa reentsi, Erronea carica samoensis, Erosaria lamarckii, Mauritia histrio, and more.
76	WW		WORLD WIDE MIXTURE including Lambis crocata, Triviella ovulata, Amoria zebra, Scutus arripodes, Macrocallista nimbosa, Cymbiolista hunteri, Strombus alatus, Melongena corona, Strombus sinuatus, Tellina folliata, Melongena corona and more.
77	WW		BIGGER SHELLS, WORLD WIDE MIXTURE including Strombus lotus, Lambis lambis, Ligona pica, Strombus alatus, Turbo coronatus, Strombus raninus, Concholepas concholepas, Ninella torquata, and more.
78	WW		NAUTILUS Shells. Variety of sliced shells.
79	WW	\$30	A Large, gorgeous Strombus gigis
80	WW		Lambis truncata and Melo amphora
81	WW		Cassis cornuta and Triplofusus giganteus
82	WW	\$30	An enormous Cassis cornuta
83	NZ		NZ Shells - Large Charonia lampas, Lunella smaragda, Talochlamys gemmulata from cod fish guts, Tonna, Alcihoe arabica and more.
84	WW	\$30	MURICIDAE Pterynotus miyokoe
85	WW	\$30	BUCCINICAE Busycon contrarium both sinistral and dextral
86	Books	\$50	. Encyclopedia of Marine Gastropods . Encyclopedia of Marine Bivalves
87	Art		22 Shells from Pohara Beach, Golden Bay, with labels and pencil drawings.
88	Art		Shell Trinkets including a jewellery box and coin purse in Paua shell.
89	Art		Pencil drawing of Strombus gigas
90	Art		Black and white pencil drawing of many shells. Special artistic drawer of NZ shells.
Jenny Raven ...			
91	WW		<i>Serratifusus virginiae</i> Harasewych, 1991. 49 mm in good condition, trawled 350 – 400 metres Norfolk Ridge, southern New Caledonia (endemic to this area)
92	WW		<i>Conus kinishitai</i> 59 mm and <i>Conus suturatus</i> 41 mm, nice colouring
93	WW		Rock Borers: includes Petricola, Zirfaea, Hiatella, Barnea (3 species including NZ)
94	WW		Two endemic New Caledonian Placostylus: fibratus fibratus 83 mm and fibratus guestieri 87 mm. Good data
95	WW		Cardiidae: <i>multispinosum</i> , <i>biradiatum</i> , <i>setosum</i> , <i>egmontianum</i> , <i>flava</i> , <i>unedo</i> , <i>elongatum</i> , <i>vertebratum</i>
96	WW		South Australian fossil Columbariidae /Serratifusus. good data, 20+ specimens
97	NZ		<i>Austrosassia parkinsonia</i> 41 mm. Bland Bay, Northland. Good clean condition
98	NZ		<i>Alcihoe larochei</i> 160 mm x 75 mm. Trawled off lower North Island east coast
Femorale (ex Snook collection) ...			
101	WW		A large and unusual Charonia variegata (333mm) from the West Indies
102	WW		A huge bivalve, possibly Spondylus limbatus from Ecuador or West America?
103	NZ		Large selection of New Zealand shells
104	NZ		Micro shells from Mahia Peninsula shell grit
105	NZ		Bivalves
106	NZ		Spondylus raoulensis from the Kermadec Islands
107	NZ		Gastropods and other marine life
108	NZ		Gastropods, including a Globisium drewi
109	NZ		Marine fossils and shell casts
110	NZ		Bivalves
111	NZ		Bivalves - some rare
112	WW		Nautilus pompilius - Natural, 225mm. Philippines
113	WW		Nautilus pompilius - Polished, 227mm. Philippines
114	WW		Bursidae, Cancellariidae, & Fascioliariidae.
115	WW		Lambis truncata sebae, 310mm
116	NZ/WW		Tonnidae, mostly from New Zealand
117	WW		Land and freshwater snails
118	WW		Buccinidae, Colubrariidae, Columbidae, etc
119	WW		Turbinellidae, Aporrhaidae, & Struthiolariidae
120	Books		NZ Marine books x4 as follows Marine Molluscs Part 1. Walsby & Morton, 1982 (an exquisite book, a work of art) . Seacoast in the Seventies. Morton, Thom, Locker, 1973 . Marine Fauna of NZ: Index 3: Mollusca. Spencer & Willan, 1995 . Reef and Beach Life of NZ. Miller & Batt, 1973.
121	Book		Seashells of Eastern Arabia. Bosch, Dance, Moolenbeek, Oliver, 1995, 296pp. No 241, signed by all 4 authors.
122	Book		Systematics of the family Nassariidae. Cernohorsky, 1984, 356pp.

123	Books		Two Murex books as follows Illust.Cat. Of Recent Muricidae Named Since 1971. R.Houart, 1994, 179pp. Exc cond, no ticks. . Murex Shells of the World. Radwin & D'Attilio, 1976, 284pp. Exc cond, no ticks, but a strange translucent protective cover mystifies all who gaze upon it.
124	Book		A Guide To Worldwide Cowries.Lorenz & Hubert, 1993, 571pp. Good condition (no ticks).
125	Books		World Shells No's 5,7,11. 1993-4. Seashells of the World, From the Ninomiya Collection, by Prof. Horikoshi, 1989, 49 plates. Exc photos. Ticks. Name & locality in English, the rest in Japanese.
126	Books		World Shells No's 9,10,12,13. 1994-5.
127	Books		World Shells No's 14,15,19. 1995-6.
128	WW		Nautilus vanuatuensis (158mm) from Pango Village, Vanuatu. Collected by Doug Snook in July 1976. Note repaired bite scar.
129	Book		The Wentletrap Book.Brown, Neville, Weil, 1999, 245pp. Binding failing.
130	Book		Recent Cassidae. Kurt Kreipl, 1997, 151pp.
131	Book		The Living Volutes. Weaver & du Pont, 1970, 375pp.
132	Book		Volutes. Poppe & Goto, 1992, 348pp. Damaged spine.
133	Book		Living Terebras of the World. Bratcher & Cernohorsky, 1987, 236pp.
134	Book		Oliva Shells. Tursch & Greifeneder, 2001, 570pp.
Kris Woods ...			
135	WW		Muricidae: Attiliosa nodulifera, Bolinus brandaris, Calotrophon ostrearum, Chicoreus trivialis, Coralliophila meyendorffi, Drupa grossularia, Eupleura triquetra, Haustellum tweedianum, Homalocantha pele, Homalocantha secunda, Mancinella alouina, Murex brevispina macgillivrayi, Murex echinodes, Nipponotrophon echinus, Nucella lamellosa, Ocenebra erinaceus, Poropteron uncinarius, Pteropurpura festiva, Trochia cingulata
136	WW		Muricidae: Bolinus brandaris, Coralliophila bulbiformis, Drupa ricinus, Drupa rubusidaeus, Eupleura muriciformis, Hexaples stainforthi, Homalocantha pele, Homalocantha secunda, Homalocantha zamboi, Murex brevispina, Murex tribulus, Muricopsis schrammi, Nucella dubia, Nucella lamellosa, Nucella lapillus, Pterochelus triformis, Pteropurpura festiva, Pteropurpura plorator, Plicopurpura patula, Siratus formosus, Vokesimurex rubidus
137	WW		Harpidae : Harpa amouretta, Harpa articularis, Harpa cabritii, Harpa davidis, Harpa major (x2)
138	WW		Cassidae: Semicassis bisulcata, Echinophoria kurodai
139	WW		Mixed Gastropods: Cypraeidae- lynx and moneta. Trividae- arctica and moneta. Calliostoma annulatum, Odontotrochus chlorostomus, Turbo setosus, Diodora jukesii, Xenophora solaroides, Opeastoma pseudodon, Phos santicosus
140	WW	\$60	Thersistrombus thersites: 139mm. Chesterfield Island, Coral Sea. Excellent condition. Beautiful markings
141	WW	\$40	Ophioglossolambis violacea: 105mm. St. Brandon, East of Mauritius. Good condition. Nice colours
142	WW		Muricidae: Babelomurex deburghiae, Babelomurex japonicus(x2), Chicoreus denudatus, Chicoreus dunni, Chicoreus florifer, Favartia tetragona, Hexaplex kuesterianus
143	NZ		Charoniidae & Cymatiidae: Charonia lampas, Austrosassia parkinsonia, Cabestana spengleri, Frustriton magellanicus, Monoplex parthenopeus
144	NZ		Muricidae: Dicathais orbita, Prototyphis eos, Haustrium lacunosum, Paratrophon cheesmani, Paratrophon cheesemani exsculptus, Paratrophon patens, Xymene plebeius, Zeatrophon ambiguus(x2)
145	NZ		Gastropods: Janthina umbilicata, Cominella tolagensis, Daphnella cancellata, Phenatoma zealandicum, Neogulareus sinclairi, Nassarius aoteanus, Pupa affinis, Aeneator otagoensis, Buccinum colensoi, Modelia granosa, Pelicaria vermis(x2)
146	WW		Strombidae: Canarium incisum, Doxander campbelli, Euprotomus aratrum, Euprotomus bulla, Lentigo pipus(x2), Lobatus raninus, Strombus pugilus
Derrick Crosby ...			
151	NZ		<i>Semicassis (Semicassis) royana</i> (Iredale, 1914). Cray pot, Three Kings Islands, Fine+, 130 mm
152	NZ		<i>Semicassis (Semicassis) labiata</i> (G. Perry, 1811). Bay of Plenty, fresh dead, Fine, 98 mm
153	NZ		<i>Charonia capax</i> H. J. Finlay, 1926. Formally known as Rubicunda from its smooth shell, and red colouring. Fine, 200mm. Craypot, northern NZ.
154	NZ		<i>Charonia capax</i> H. J. Finlay, 1926. Craypot, Three Kings Islands. Fine+, 210 mm. A thick heavy very colourful shell, formally known as form Powellii.
155	NZ		<i>Columbarium (Coluzea) wormaldi</i> (A. W. B. Powell, 1971). Dredged east of The Aldermen Islands, Fine+, 110 mm
156	NZ		<i>Semicassis (Semicassis) labiata</i> (G. Perry, 1811). Washup fresh dead, Mahia Peninsula. Fine+ 75 mm
157	NZ		<i>Xenophalium pyrum</i> (Lamarck, 1822). Cray pot, Three Kings Islands. Fine, 100 mm, known as form Powellii
158	NZ		<i>Babelomurex lischkeanus</i> (Dunker, 1882). Trawled, Bay of Plenty. Fine+, 45 mm
159	NZ		<i>Poirieria zelandica</i> (Quoy & Gaimard, 1833). On a long line, Bay of Plenty. Almost gem, 75 mm, a very nice specimen.
160	NZ		<i>Calliostoma turnerorum</i> (A. W. B. Powell, 1964). Trawled, Bay of Plenty, 1967. Fine+, 58 mm
161	NZ		<i>Calliostoma (Maurea) granti</i> (A. W. B. Powell, 1931). Doubtful Sound, ex Grange collection. Fine+, 47 mm
162	NZ		<i>Calliostoma (Calliotropis) pellucidum</i> (Valenciennes, 1846). Northland. Fine, 45 mm
163	NZ		<i>Calliostoma (Maurea) osbornei</i> A. W. B. Powell, 1926. Hauraki Gulf. Fine+, 28 mm
164	NZ		<i>Calliostoma (Maurea) jamiesoni</i> B. A. Marshall, 1995, Diver, Three Kings Islands, 1998. Fine+, 30mm
165	NZ		<i>Prototyphis eos</i> (F. W. Hutton, 1873). Reotahi, Whangarei Heads. Fine+, 28 mm
166	NZ		<i>Offadesma angasi</i> (Crosse & P. Fischer, 1864). Lonnekers Beach, Stewart Island. Fine+, 100 mm
167	WW		<i>Cymbiola (Cymbiolacca) thatcheri</i> (McCoy, 1868). St Bellona Reef, New Caledonia. Fine+, 100 mm
168	WW		<i>Cymatium ranzanii</i> ? A huge specimen, Sadly no data, but a nice specimen. I don't guarantee correct ID. 215 mm

169	WW		<i>Perisserosa guttata</i> (Gmelin, 1791). Philippines. Fine+, 70 mm
170	WW		<i>Umbilia armeniaca</i> (Verco, 1912). Diver, Port Lincoln, South Australia. Fine+, 103 mm
171	WW		<i>Leporicypraea valentia</i> (Perry, 1811). Mindanao, Philippines. Fine+, 86mm
172	WW		<i>Voluta ebraea</i> ? A very nice specimen, no data. 150 mm
173	WW		<i>Pterynotus tripterus</i> (Born, 1778). Solomon Islands. Average condition, 42 mm
174	WW		<i>Chama lazarus</i> Linnaeus, 1758. Calituban Is, Bohol, Philippines. 2 nice specimens, about 60 mm each.
175	WW		<i>Syrinx aruana</i> (Linnaeus, 1758). Northern Australia. Generally nice, filed lip. With Operc. 450 mm
176	WW		<i>Adelomelon beckii</i> (Broderip, 1836). Uruguay. Large typical specimen. About 320 mm
177	WW		<i>Livonia mammilla</i> (G. B. Sowerby I, 1844). No location data, average condition. 240 mm
178	WW		<i>Melo</i> sp. A large bailer shell. No info. Slightly filed lip. 250 mm
179	WW		<i>Perotrochus westralis</i> (Whitehead, 1987). Off Scott Reef, W Australia. Fine+, 115 mm
180	WW		<i>Bayerotrochus africanus</i> (Tomlin, 1948). Dredged, South Africa, 1998. Fine+, 125mm
Russell Hodgson ...			
181	NZ		Alcithoe arabica (x8) - variety of specimens from the Far North
182	NZ		Alcithoe arabica (x7) - variety of specimens from Auckland and Northland
183	NZ		Alcithoe arabica freaks (x3)
184	NZ		Alcithoe fusus (x11) from various localities
185	NZ		Alcithoe fissurata (x2) and Alcithoe tigrina
186	NZ		Alcithoe fissurata, Alcithoe jaculoides (x2), and Provocator mirabilis (aurantia form)
187	NZ		Alcithoe fissurata (juvenile), Alcithoe jaculoides, Alcithoe wilsonae f. acuminata (juvenile), and Provocator mirabilis (x3)
188	NZ		Alcithoe seelyeorum (x2) from Three Kings Islands craypots. One knobby form and one smooth form (possibly an undescribed species)
189	NZ		50 lots of small/micro shells and landsnails, many ex Norm Douglas
190	NZ		4 lots of small deep water shells dredged off SE Australia and New Zealand
191	WW		8 lots of micro shells from the Falkland Islands: Eatoniella kerguelensis, E.k.chiltoni, Erodona mactroides, Erodona mactroides, Mysella arthuri, Neolepton sp., & Powellisetia sp.
192	WW		Volutidae: 6 Cymbium species ex Gardner collection
193	WW		Xenophora conchyliophora (91mm, w/o) from Dominican Republic. Nice large specimen, but four stones have been glued back on.
194	WW		Bivalves: 12 specimens of Ostreidae, Gryphaeidae, Isognomonidae, Malleidae, and Margaritidae
195	WW		Bivalves: 20 specimens of mostly Anomiidae, Ostreidae, Gryphaeidae, Isognomonidae, and Malleidae
196	WW		Large Bivalves: Atrina zelandica (290mm), Atrina vexillum (276mm), Pinna bicolor (307mm), Pinna incurva (255mm), Pinna deltodes (229mm), and Pinna muricata (116-170mm)
197	WW		Large Bivalves: Atrina zelandica (268mm), Atrina vexillum (263mm), Pinna deltodes (255mm), Pinna incurva (244mm, but 2nd valve is broken), Pinna bicolor (150,162mm), and Pinna muricata (111mm)
198	WW		Achatinidae (large land snails) - 8 species, 35 specimens
199	Book		New Zealand Mollusca, by A.W.B. Powell. Photocopy, with Bivalves in separate section. This book is essential for new collectors of NZ shells.
Gardner collection ...
